

# Letter 1

addressed to: Professor Miyata Hagane

This letter was folded an extra time to fit into an envelope. There are extra fold lines showing where several folding patterns had been tried and not worked.

Professor Miyata,

I am writing to inquire about getting notes or lectures or something for your I think upcoming aetherology class. I'm trying to keep up with learning more traditional aetherology while I learn about how these weirdos Alexandrians use aether through electropes.

Thanks

Aly & Sparks

PS I remember something about classes and if I'm right and you're teaching after I leave I don't wanna miss it pleeeeeeassseeeeeeee

Also could you let me know who else is doing interesting classes? thanks byeeeeeee
